Precipitation probability					
80%	80%	60%	40%	30%	20%

Forecast for Thursday 11 Nov 2021

Weather: Widespread low cloud and outbreaks of rain and drizzle through the morning. Conditions improving through the afternoon with a freshening breeze; cloud breaking somewhat to give some brightness and the risk of an isolated shower.

Chance of cloud free mountain/hill tops above 600m: 10%, becoming 60% through the afternoon.

Visibility: Moderate to poor in rain and drizzle to start, and very poor in hill fog with cloud generally extensive above around 300m. Visibility generally improving outside of showers during the afternoon, with cloud becoming increasingly broken up and lifting to give scattered amounts above 400-600m.
